- 3.End Users
- 4.Tools and Technologies
- 5.Portfolio design and Layout
- 6.Features and Functionality
- 7.Results and Screenshots
- 8.Conclusion
- 9.Github Link

PROBLEM STATEMENT

Many individuals struggle to showcase their skills, projects, and achievements in a professional and engaging manner.

Traditional resumes are limited in interactivity and design.

There is a need for a personal portfolio website that highlights skills and projects effectively.

PROJECT OVERVIEW

Developed a responsive portfolio website using HTML, CSS, and JavaScript.

The portfolio showcases personal information, skills, projects, and contact details.

Designed with clean UI/UX principles and optimized for desktop and mobile.

WHO ARE THE END USERS?

Recruiters & Employers – to evaluate skills and past work.

Clients – to check expertise before collaboration.

Peers/Community – for networking and sharing ideas.

Personal Branding – for online visibility and self-promotion.

TOOLS AND TECHNIQUES

HTML5 – Structure of the website.

CSS3 – Styling and responsive design.

JavaScript – Interactivity (form validation, animations).

Git & GitHub – Version control and project hosting.

VS Code – Development environment.

POTFOLIO DESIGN AND LAYOUT

Header – Name, tagline, navigation menu.

Sections – About, Skills, Projects, Contact.

Projects Section – Showcases real examples with descriptions.

Footer – Social links (LinkedIn, GitHub, Email).

Responsive Layout – Works on both desktop and mobile.

FEATURES AND FUNCTIONALITY

Smooth scrolling navigation.

Responsive design for mobile & desktop.

Interactive project cards.

Contact form with validation.

Integrated social media & GitHub links.

Simple and clean UI for better user experience.

RESULTS AND SCREENSHOTS

Successfully deployed a fully functional personal portfolio website.

Website is visually appealing and easy to navigate.

Screenshots show different sections (About, Skills, Projects, Contact).

Positive feedback from peers and mentors.

CONCLUSION

The portfolio project enhances personal branding.

Provides a professional platform to showcase work.

Demonstrates skills in front-end development.

Serves as a base for future improvements (blogs, backend integration).
